Class Code: @forensici25

Our study of Forensic Science will include forensic law, crime scene teams, and the collection and analysis of various types of evidence as well as the crime scene investigation process. Our focus will remain on the analysis of evidence using the different sciences and scientific procedures. In addition, case studies and crime scene scenarios will be used to develop an understanding of the issues emerging as the science of forensics continues to develop. Materials in this class will be used for educational purposes and not to promote criminal behavior.

Devices and AI Use Policy

Personal devices will be silenced and put away in the students' phone pocket in the classroom until work is completed and/or the teacher gives permission for device use. Headphones will not be allowed in class unless otherwise directed by the teacher. Noncompliance will result in the phone being confiscated for remainder of class (1st offense) or sent to the office with a referral (2nd offense).

This course will allow—in some cases, even encourage—the use of generative artificial intelligence (GAI) techniques in some assignments. Unless otherwise indicated, the default is that this kind of use is prohibited. GAI use must be recognized and referenced. Academic misconduct will be the result of breaking this policy and could result in loss of credit for the assignment(s) as referenced in the cheating policy in the Saraland City Schools' Student Handbook. It is the student's responsibility to follow the requirements of each course or assignment.
